About

Smile House Dental Lab LLC is a leading dental laboratory in the UAE, proudly based in Sharjah, dedicated to delivering professional and reliable dental lab services. With a strong commitment to quality and precision, we support dental professionals by providing advanced solutions that enhance patient outcomes. Our reputation is built on trust, consistency, and a deep understanding of the evolving needs of modern dentistry.

As the dental industry continues to evolve, we continuously align our services with the latest scientific advancements and cutting-edge CAD/CAM technology. This enables us to produce highly accurate and aesthetically superior digital restorations for dental clinics worldwide. By integrating innovation with expertise, we ensure every product meets international standards while maintaining efficiency and precision throughout the process.

All our work is carried out in our state-of-the-art laboratory, where skilled technicians specialize in specific stages of production to ensure exceptional results. At Smile House Dental Lab LLC, we prioritize patient satisfaction and collaborate closely with dental professionals to achieve optimal outcomes. By combining our technical excellence with your clinical expertise, we consistently deliver high-quality restorations that exceed expectations.

Where Technology Meets
Dental Craftsmanship.

Services

Zirconia Restorations

Our zirconia restorations are known for their strength, durability, and lifelike appearance. Ideal for crowns and bridges, zirconia ensures both functional excellence and aesthetic perfection.

E-Max Restorations

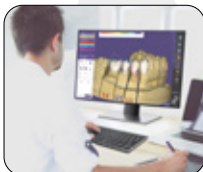

We specialize in E-Max restorations that provide exceptional translucency and natural beauty. These restorations are perfect for achieving highly aesthetic results, especially in visible areas.

Veneers & Smile Design

We create custom veneers to enhance smiles with precision and artistry. Our smile design solutions help dentists achieve natural, confident, and aesthetically pleasing results for their patients.

Porcelain fused to metal

Our CAD designed frame work PFM restorations combine a strong metal substructure with layered porcelain, representing a time-tested solution that balances esthetics, durability, and cost-effectiveness.

Dental Implants Restorations

We offer customized implant-supported restorations that deliver strength, stability, and natural aesthetics. Our solutions are designed to integrate seamlessly with the patient's oral structure for long-lasting results.

Dentures (Full & Partial)

We design comfortable and functional full and partial dentures tailored to each patient. Our dentures are crafted to ensure proper fit, improved function, and natural appearance.

Orthodontic Appliances

We provide a range of orthodontic appliances to support alignment and corrective treatments. Each appliance is carefully designed to meet the specific needs of orthodontic cases.

Aligners

Our aligners ensure accurate tooth movement and optimal fit. They are crafted to be discreet, durable, and patient-friendly, helping dental professionals deliver confident and predictable smile transformations.

Why Choose Us

Precision and Consistent Quality

Precision Fit: Reduce chair time and eliminate adjustments with restorations designed to fit perfectly the first time.

Artistic Aesthetics: Our technicians masterfully balance shade, translucency, and smile lines for naturally beautiful results

Advanced Technology and Digital Workflows

Open .STL Architecture: We offer seamless compatibility with various intraoral scanners and CAD/CAM systems, allowing for faster digital workflows.

Modern Fabrication: We utilize 3D printing, advanced milling machines, and digital smile design to produce high-accuracy prosthetics.

Trusted Materials and Warranties

Premium Materials: Use of top-grade, Branded-sourced materials ensuring safety and longevity.

Warranties: Offering 5-year, 7-year, or 10-year warranties on restorative work, providing peace of mind to both the clinic and the patient.

"We don't just supply restorations; we partner in patient satisfaction. By combining expert craftsmanship with 3D-printing precision, we guarantee a 'fit first time' experience that turns hours of chair time into minutes, allowing you to focus on the patient, not the adjustment."

Strict Quality Control

Every Restoration Passes multiple quality checks.

Fast & Reliable Turnaround Time

On Time Delivery, every time
